Management Research (<http://www.gcstmr.com.au/>)*

CONFERENCE INFORMATION

International Conference on Water and Environmental Engineering (iCWEE-2019, Dhaka) will bring international and national experts in Water and Environmental Engineering to Dhaka (the Capital City of Bangladesh) to present and share their latest research and practices.

Water is the vital source of life. Without water no living things can survive. Water resources management is vital for a nation's survival and progress. Climate change is bringing multi-dimensional issues to water and environment. Recent research, practice and advancements in Water and Environmental Engineering will be discussed by many international leading experts and professionals who will gather at iCWEE-2019, Dhaka, Bangladesh. The main objectives of this conference are to provide an opportunity for professional interaction amongst the researchers, engineers, academics and students, and to showcase the latest developments and future trends in their fields.

iCWEE-2019 is supported by the Global Circle for Scientific, Technological and Management Research (GCSTMR) as its 4th World Congress. GCSTMR endeavors to create a platform for young researchers to exchange ideas and share information with experts in their respective fields. GCSTMR encourages and facilitates trans-national collaborations among its members and associates in research, training and professional activities. Multidisciplinary international conference series run by GCSTMR could open vast opportunities for researchers enabling them to interact on the global platform, as well as to seize the advantage of knowledge sharing in the digital arena.

The 4th GCSTMR Congress is being jointly organized by GCSTMR, Bangladesh Open University (BOU), Daffodil International University, Islamic University of Technology (IUT), Dhaka University of Engineering and Technology (DUET) and Business Faculty of the Dhaka University (DU). The conference venue is 20 km away from the airport and many international standard hotels, motels, guest houses and resorts are situated in and around the venue.

Bangladesh, an emerging economic power in Asia, is also popular for its two main tourist attractions: Cox's Bazar, is a contender for the title of longest unbroken sandy sea beach in the world, and the Sundarbans, the largest mangrove forest in the world with the Royal Bengal Tiger and the Spotted Deer.
